## Policies & Disclaimers

### Important things to consider before purchasing:

- ✓ All equipment on the quote is subject to availability from our warehouse and manufacturers.
- ✓ Wholesale Solar assumes the role of the distributor. In the event a part of your order is damaged or defective we will work with you to determine the cause of the problem and get a replacement sent out in a reasonable amount of time. After installation, all warranties will be facilitated through the manufacturers.
- ✓ It is recommended that you read all installation manuals and consult a licensed electrician if you do not have previous experience with solar installations.
- ✓ Wholesale Solar will not be responsible for any additional expenses incurred for engineering, permitting or installation.
- ✓ This quote includes, and is subject to your acceptance of, certain other terms and conditions set forth in various notices, policies, and disclaimers, including, but not limited to our Terms and Conditions, which can be accessed at <https://www.wholesalesolar.com/terms-conditions>. Please note, any attempt to alter, supplement, modify, amend, or repudiate any of the terms of this quote will be considered a material alteration of this quote, and your acceptance of such terms is a condition to Wholesale Solar's willingness to accept your order and supply the products listed above.

### Tax Liability Notice

- ✓ Wholesale Solar is only required to collect sales tax on shipments to customers located in Alabama, Arkansas, California, Colorado (partial), Georgia, Hawaii, Illinois, Idaho, Indiana, Iowa, Kentucky, Maine, Maryland, Michigan, Minnesota, Nevada, New Jersey, New Mexico, New York, North Carolina, Oklahoma, Pennsylvania, South Carolina, Texas, Utah, Vermont, Virginia, Washington (partial), Wisconsin, and Wyoming. All equipment on the quote is subject to availability from our warehouse and manufacturers.
- ✓ Wholesale Solar does not collect sales tax on sales made to residents of other states. Sales tax is charged based on sales tax legislation on the date of your completed sales transaction. If sales tax was not collected on your sale, you may be liable for Use Tax in your state. You are advised to consult with the Department of Revenue in your state to determine your sales or use tax obligations. This purchase is not exempt from sales or use tax in your state merely because it is made over the Internet or by other remote means. Many states where product purchases are taxable require purchasers to a) file a sales and use tax return or complete the appropriate section(s) on your annual income tax return reporting all purchases that are taxable in the state and for which no tax was collected by the retailer and b) pay tax on those purchases.
- ✓ In the event the shipping address is changed, there may be additional tax.
- ✓ Additional information on sales and use tax reporting and payment requirements can be found on the Department of Revenue website for your state. Information for shipments to Louisiana, Rhode Island, and South Dakota can be found online at the following location: <https://www.wholesalesolar.com/use-tax-notification>

### Important Shipping Logistics

- ✓ If you are ordering large equipment such as solar panels, power centers, batteries, rails or generators, your equipment will be delivered by a full-sized semi-truck. It is your responsibility to determine whether a 40 ft. truck can deliver to the address you provide. Please discuss this with your sales technician. For more information about freight shipments please visit the freight Information page at: <https://www.wholesalesolar.com/solar-information/freight>
- ✓ Lead times fluctuate based on time of year, type of order and product availability. Please ask your sales technician about our current lead times.
- ✓ You will receive notification from our distribution center once you order ships, containing tracking numbers and ETA for your shipment. With freight shipments, this ETA is for the shipping terminal closest to your shipping address, not the final destination itself. Our freight shipments are fully insured during transit and for an additional 24 hours after the recorded time of delivery. To replace merchandise that was damaged during transit at no cost it is required that you thoroughly inspect all delivered equipment for any damage within this 24 hour period. In the event that there is visible damage at time of delivery please be sure to note it on the delivery receipt. After inspection, report any damage via email to [claims@wholesalesolar.com](mailto:claims@wholesalesolar.com) with photos of any damaged equipment.

### Return Policy

- ✓ Merchandise may be returned within 30 days of the receipt of the product with the exception of: Custom built items, including but not limited to Four Star Power Centers, Outback Flexpower Systems, Outback Solar Power Stations, and custom built solar panel mounting systems. (These items are noted as non-returnable on the quote)
- ✓ 15% restocking fee will be charged for all returns.
- ✓ Shipping charges and wire diagrams are non-refundable.
- ✓ For more information about our return policy, please read our Terms and Conditions page at <https://www.wholesalesolar.com/terms-conditions>.
- ✓ Requests for returns can be submitted online at <https://www.wholesalesolar.com/rma/request-form>.
